

# ValveFinder® – for easily finding the right solution for your application.

Web based valve configurator

# ValveFinder® — a user-friendly configurator for valves, actuators and accessories

ValveFinder® is a web based application to find the ideal InterApp butterfly valve, actuator and accessory for your specific application.

ValveFinder® doesn't need installation. It is accessible from everywhere with just internet connection, allowing you enormous flexibility.

ValveFinder® advantages:

- Fast and reliable
- Always updated data
- Over 25'000'000 possible configurations
- Various selection criteria
- User-friendly interface with simply quotation administration
- 2D and 3D files
- Export to pdf and Excel

# Configurable products

## Bianca PTFE-lined butterfly valve

Centric butterfly valve for corrosive fluids and high-purity applications.

|                        |   |
|------------------------|---|
| Body construction      | Wafer, Lug, U-Section   |
| Nominal diameter       | DN 32–900   |
| Max. working pressure  | Up to 16 bar  |
| Flange connection      | PN10, PN16, ANSI cl. 150  |
| Temperature range      | –20°C to 200°C  |
| Body material          | Ductile iron, Stainless steel   |
| Disc-shaft (one piece) | Stainless steel, Stainless steel polished Ra <0.8, Super Duplex, Stainless steel polished Ra <0.4 and Fe <1%, Super Duplex polished Ra <0.8, Hastelloy, Hastelloy polished Ra <0.8, PFA, PFA antistatic |
| Liner material         | PTFE, PTFE antistatic, Ultraflon®, Ultralene™, Fluoroplastomer according to FDA 177.1550 and EU no. 10/2011   |
| Special execution      | High-purity, LABS-free and for explosive atmospheres  |

## Desponia® and Desponia® plus Rubber-lined butterfly valve

Centric butterfly valve with an elastomer liner for long-lasting use in highly demanding environments (Desponia®) and high-temperature applications, process automation or vacuum applications (Desponia® plus).

|                       |   |
|-----------------------|---|
| Body construction     | Wafer, Lug, U-Section   |
| Nominal diameter      | DN 50–1600 (Desponia®) / DN 25–600 (Desponia® plus)   |
| Max. working pressure | Up to 16 bar (Desponia®) / up to 20 bar (Desponia® plus)  |
| Flange connection     | PN6, PN10, PN16, ANSI cl. 150 (Desponia®)<br>PN6, PN10, PN16, PN25, ANSI cl. 150 (Desponia® plus)   |
| Temperature range     | –20°C up to 140°C (Desponia®) / –40°C up to 200°C (Desponia® plus)  |
| Body material         | Cast iron, Ductile iron (Desponia®)<br>Cast steel, Ductile iron, Stainless steel (Desponia® plus)   |
| Shaft material        | Stainless steel   |
| Disc material         | Ductile iron and Rilsan, Polyurethan, Chrom, Halar coating, Stainless steel, Steel and Ultralene™ coating, Stainless steel polished Ra <0.4, Hastelloy, Stainless steel and PEKK coating, Super austenitic steel, Alubronze |
| Liner material        | EPDM, NBR, FPM, Flucast®, CSM, ECO, MVQ, and others,<br>Liners are compliant with FDA rules and EU regulation No. 1935/2004   |
| Special execution     | Grease-free, LABS-free,<br>for explosive atmospheres and with bonded liner  |

**85** Materials  
 – 18 body materials  
 – 5 shaft materials  
 – 31 disc materials  
 – 31 liner materials

**160** Media  
 Based on different concentrations and temperatures, around 2400 different selections can be made

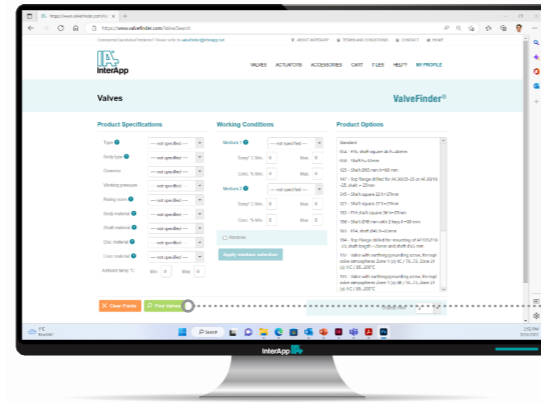

**374** Actuators  
 – 28 handlevers  
 – 88 gearboxes  
 – 156 pneumatic actuators  
 – 102 electric actuators

**164** Accessories  
 – 11 position indicators  
 – 11 positioners  
 – 11 solenoid valves  
 – 115 mounting adaptors  
 – 16 other accessories

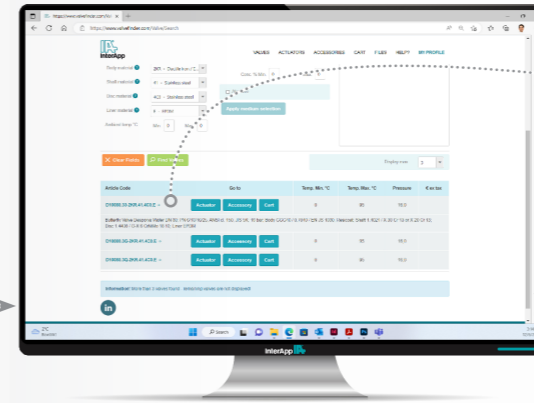

# Step by step instruction

## Step 1 - Valve selection

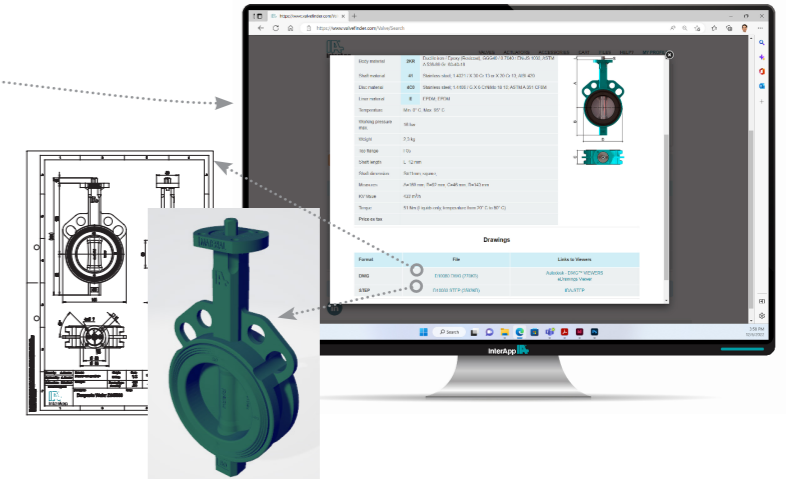

The choice can be done either by entering:  
— valve data such as type, size, pressure, materials, etc.  
— the media data of desired application.

Solutions are displayed by ascending price.

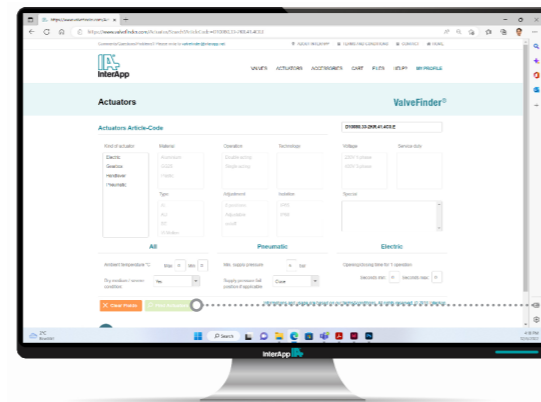

By clicking on the article code, the datasheet and symbolic picture of the configured valve are displayed.  
Drawings and 3D model can be downloaded.

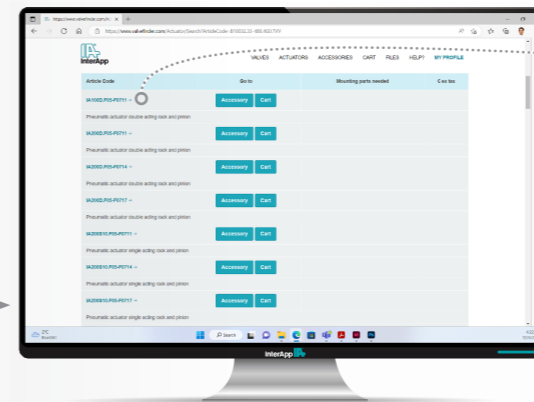

## Step 2 - Actuator selection

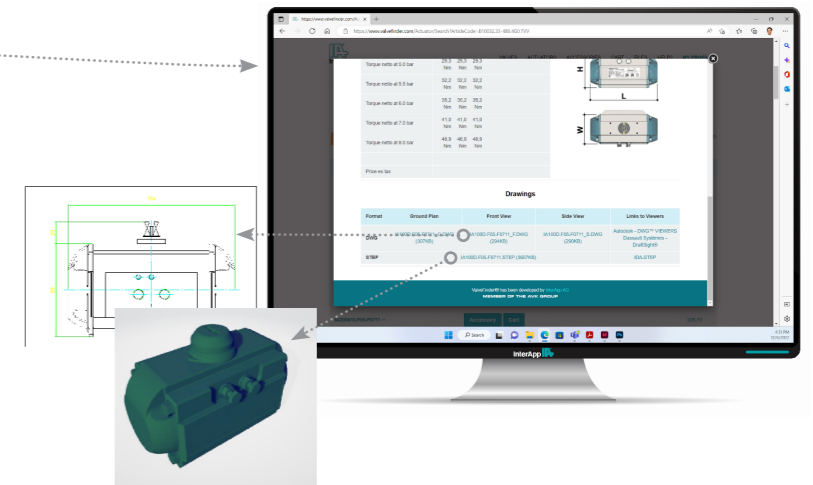

Actuators can be selected by entering the type and working conditions.

Solutions are displayed by ascending price.

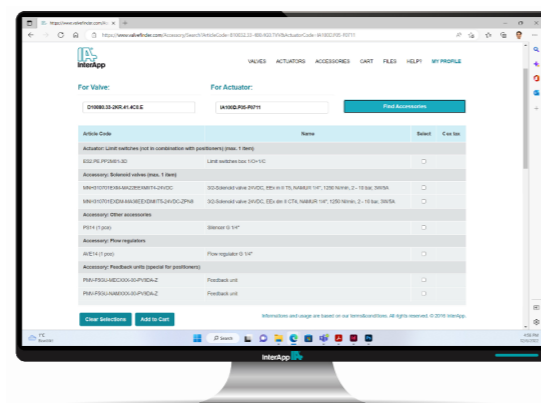

By clicking on the article code, the datasheet and symbolic picture of the actuator are displayed.  
Drawings and 3D model can be downloaded.

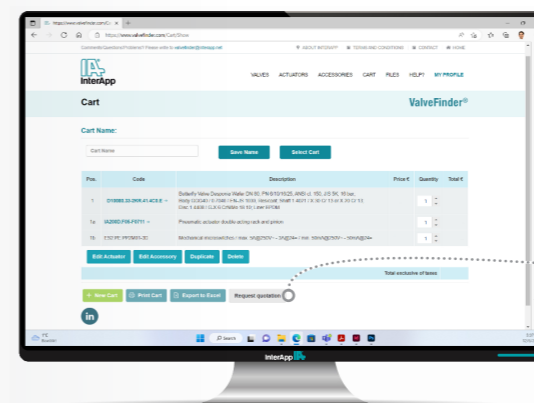

## Step 3 - Accessory selection

Accessories that are suitable for the actuator are displayed in a list.  
The accessories can be selected and added to the cart.

## Step 4 - Request quotation

The cart shows the chosen products and their gross prices.  
Carts can be saved, edited, renamed, duplicated or deleted.  
It is possible to export carts in pdf or Excel format.  
Quotation can be requested directly.

# Globally local

As an international company with extensive product and project expertise, we support you with our sales partners and our technical support team in all parts of the world.

We are there for you.  
Anywhere, anytime.

## Facts & Figures

- / 1969 founded in Switzerland
- / 3 manufacturing sites in Switzerland, Spain and China
- / Over 20 sales and distribution companies and export sales partners
- / A dedicated member of the AVK Group since 2010

-  InterApp Subsidiaries
-  AVK Industrial Companies
-  Export Sales Partners
